## Dirt Tarp

---

### 1. Introduction

This is a general specification that covers the minimum requirements for the dirt tarp used in the distribution system in Puerto Rico. Further information will be provided by LUMA Energy at the time of order placement and will provide information on site specific conditions, quantity, and other requirements. This document includes the general electrical and mechanical characteristics of the material.

### 2. Special Requirements

Samples shall be furnished as requested by LUMA Energy. Vendors that have supplied this material to LUMA on previous orders will not have to furnish samples at bid opening. The equipment/material will be received at the LUMA's general warehouse (011) at Palo Seco, Puerto Rico. Shipping will include transportation and unloading at the indicated warehouse.

### 3. Literature

Descriptive and technical literature must be supplied by the vendor at time of bidding. This literature may include, but is not limited to details of material, drawings, documented testing, and instructions for use and installation. Failure to submit documents on time will cause bidder disqualification. Evidence of PREPA's and/or LUMA Energy's approval of the equipment/material shall be supplied by vendor if requested by LUMA Energy.

### 4. Markings

- 4.1. Wooden crates or packages must be clearly marked on the outside with LUMA Energy's purchase order, warehouse item number, and supplier's part number.
- 4.2. Packaging labels and tags shall be waterproof.

### 5. Compatible with:

See Table 1 for compatible manufacturers and models. These models are examples of the material(s) described in this document and does not represent a preference. LUMA will evaluate equally any model not listed here during any acquisition event.

## Dirt Tarp

---

### 6. Packaging

All equipment/material shall be packaged and marked in such a way as to facilitate handling and protection from damage and that the receiving warehouse can readily identify it and send it, in one complete unit, to a field location without opening crates or boxes to sort items and/or parts.

### 7. Number Per Package (Logistics)

One (1) per package or as requested by LUMA Energy.

### 8. Acceptance Criteria

- 8.1. Test required: certified by external laboratories.
- 8.2. The equipment/material shall be manufactured in accordance with the latest applicable standard specifications. When conflicts occur between purchaser's specifications and the standard specifications, the purchaser's specification shall prevail.
- 8.3. Latest applicable codes, standards, and other regulations:

### 9. Description

- 9.1. Dirt tarp to be used to collect dirt and waste from work area.
- 9.2. Tarp dimensions shall be 10' x 10'.
- 9.3. Shall be heavy-duty and reusable, capable of a maximum load capacity of 5,000 lb.
- 9.4. It shall be manufactured with double stitched nylon webbing for reinforcement.
- 9.5. It shall be furnished with lifting loops at each corner and at the center of each side, for a total of 8 lifting loops distributed uniformly.
- 9.6. Shall be color red or similar color.

### 10. Inspection

The acceptance of any equipment/material shall in no way relieve the vendor from his responsibility to meet all the requirements of this specification, and it would not prevent subsequent rejection if such equipment/material were found later to be defective.

### 11. Proposal Information

- 11.1. Submitted proposals must include:
  - a. Technical information

### Appendix 1: Table of Compliance

Criteria	Description	Pass/Fail (P / F)	Comments
Specification	The Proponent complies with the corresponding specification document (4350.XXX).		
Industry Standards	The Proponent complies with the industry standards established in the specification document.		
Dimensions	Tarp dimensions shall be 10' x 10'.		
Capacity	Shall be heavy-duty and reusable, capable of a maximum load capacity of 5,000 lb.		
Construction	It shall be manufactured with double stitched nylon webbing for reinforcement.		
	It shall be furnished with lifting loops at each corner and at the center of each side, for a total of 8 lifting loops distributed uniformly.		
Color	Shall be color red or similar color.
