

Affidavit

I _____, of legal age, civil status _____ and resident of _____, Puerto Rico declare under oath that:

1. My personal circumstances are as described above.
2. Me: (select the one that applies)
 - a. I legally represent Mr./Mrs. _____, owner of the property, as your executor.
 - b. I am the heir to the _____ property.
 - c. I am the owner/co-owner of the property under deed number _____ and number Cadastre _____.
 - d. I am a tenant of the property for the period of _____.
3. A photovoltaic system was installed on the property located at (physical address) _____ location ID number _____, meter _____, and service account _____. (Document completion customer information)
4. The Distributed Generation (DG) system on the property, located at the address provided in this document, is identified with the case number _____ (previous customer).
5. Prior to: (select the one that applies)
 - a. **Expiration** of the rights and obligations entered into under the current Property Agreement where the DG is installed, the electric service account remains active with net metering applied.
 - b. **Acquiring** as a new holder, the rights and obligations contracted under the current Agreement in force of the property where the installed DG is located, the electric service account is still active with net metering applied.
 - c. **Transferring** the rights and obligations under the current Agreement to the new owner of the property where the installed DG is located, the electric service account is still active with net metering applied.
 - d. **Redeeming** the rights and obligations entered into under the current Agreement in force of the property where the GD is installed, the electric service account continues to active with net metering applied.
6. This Affidavit is submitted, certifying:
 - a. The equipment of the installed photovoltaic system has not undergone any alterations since the project was approved, and it matches the records with LUMA Energy.
 - b. If any changes or modifications were made, they were electronically notified with technical documentation of the equipment. If the inverter was replaced, even if it has the same capacity, operational characteristics, and technical specifications as the previous one, the certified results of the acceptance tests were provided.
 - c. If the modifications or changes resulted in an increase in generation capacity, or changes in the generator's technology type, a new application was submitted for the proposed project evaluation. The new DG number was presented as a reference in the Affidavit.
 - d. I am aware that LUMA Energy may review the Distributed Generation system installed on my property if requested, to inspect the current configuration and ensure there are no inconsistencies.
